ABOUT OUR COMPANY

EMEP Consultancy Services Pvt. Ltd., established in 2019, is led by Mr. Ramesh Chand (AMIE, MIE), a Certified Energy Manager and retired Executive Engineer (Electrical) from CPWD. With more than 45 years of distinguished experience in the E&M field, he brings a wealth of technical expertise and a proven record of delivering excellence across diverse projects.

We operate on the principle that every project is unique and must be approached with precision and individuality. By gathering comprehensive inputs from our clients, we develop customized designs that adhere to all relevant building codes and guidelines. This ensures that our solutions are not only compliant but also optimized for efficiency, cost-effectiveness, and long-term performance.

Our methodology is built on achieving the ideal balance between project cost and system efficiency. Leveraging advanced engineering practices, we consistently deliver solutions that are technically robust, commercially viable, and environmentally responsible. Innovation and sustainability remain central to our work, enabling us to set new benchmarks in building services engineering while addressing the evolving needs of modern infrastructure.

Beyond technical delivery, we are committed to fostering lasting relationships with our clients. By exceeding expectations and maintaining a client-centric approach, we have earned trust and recognition as a reliable partner in the industry. Our dedication to quality, innovation, and sustainability continues to define our journey and strengthens our reputation as leaders in building services engineering.

COMPANY OVERVIEW

EMEP Consultancy Services Pvt. Ltd. is a leading provider of innovative and optimized Building Services solutions, specializing in Mechanical, Electrical, and Plumbing (MEP). Our mission is to deliver sustainable, cost-efficient, and high-performance systems that align with client requirements, project timelines, and commercial budgets. With a strong emphasis on quality and compliance, we ensure every design adheres to the latest building codes, Bureau of Energy Efficiency (BEE) standards, and GRIHA guidelines.

Our expertise spans the entire project lifecycle — from conceptual design and estimation to the preparation of draft and working drawings, followed by execution and supervision of electrical and mechanical services. By combining technical excellence with practical insights, we create solutions that are not only reliable but also future-ready, maximizing energy efficiency and reducing operational costs for long-term value creation.

We serve a diverse portfolio of projects across residential, commercial, industrial, hospitality, healthcare, and retail sectors. Our adaptability across industries reflects our commitment to delivering customized solutions that meet the unique requirements of each client while maintaining the highest standards of performance. Whether supporting public or private sector developments, we provide end-to-end support from initial concept to final handover and beyond.

DIRECTOR'S MESSAGE

At EMEP Consultancy Services Pvt. Ltd., our story is one of passion, dedication, and a deep belief in creating solutions that truly make a difference. For over four decades, we have been privileged to design and deliver MEP systems that not only meet technical excellence but also embrace sustainability and efficiency.

My own journey from academic milestones like AMIE and MIE, Chartered Engineer, to becoming a Certified Energy Manager, and serving as Executive Engineer (Electrical) at CPWD has given me the opportunity to face complex challenges and craft solutions that stand the test of time. These experiences continue to inspire me to lead our team with a focus on innovation and responsibility.

We see every project as unique, deserving of a tailored approach that respects both the client's vision and the environment. By aligning our work with the latest building codes, BEE, and GRIHA guidelines, we ensure that our solutions are future-ready and environmentally conscious.

At EMEP, we don't just deliver services we build partnerships. Our commitment to precision, sustainability, and client satisfaction is at the heart of everything we do. As we look ahead, we remain devoted to creating spaces that are efficient, reliable, and built for generations to come.

ER. RAMESH CHAND
DIRECTOR & PRINCIPAL CONSULTANT

SERVICES

- 1 MEP Design**
Innovative mechanical, electrical, and plumbing solutions tailored for efficiency and sustainability.
- 2 MEP Auditing**
Professional system audits to enhance performance, safety, and cost-effectiveness.
- 3 MEP Project Management**
End-to-end management ensuring timely delivery and quality execution.
- 4 Integrated Building Management System (IBMS)**
Smart integration of building services for centralized control and energy saving.
- 5 Nurse Call System**
Reliable communication systems that improve patient care and staff efficiency.
- 6 Modular Operation Theatre (OT)**
State-of-the-art modular theatres designed for sterility, flexibility, and compliance.
- 7 Building Information Modeling (BIM)**
Advanced 3D modeling for accuracy, collaboration, and streamlined construction.
- 8 Pneumatic Tube System**
Fast, secure transport of samples and materials across facilities.

VISION AND MISSION

VISION

To be recognized as India's premier EMEP consultancy by delivering exceptional customer service, embracing cutting-edge engineering methodologies, and adopting international best practices and technologies to consistently exceed client expectations.

MISSION

Our mission is to deliver innovative, sustainable, and cost-effective MEP solutions that enhance the built environment. We are committed to excellence through technical expertise, integrity, and collaboration, ensuring every project meets the highest standards of quality, safety, and efficiency. By fostering long-term partnerships and continuously adopting global best practices, we aim to create enduring value for our clients and communities

CORE VALUES

✱ Integrity

We uphold the highest ethical standards, ensuring transparency, honesty, and accountability in every project.

✱ Innovation

We embrace emerging technologies and engineering methodologies to deliver forward-thinking solutions that set new benchmarks in the industry.

✱ Excellence

We are committed to precision, quality, and continuous improvement, striving to exceed expectations in all aspects of our work.

✱ Sustainability

We design solutions that are environmentally responsible, energy efficient, and socially impactful, contributing to a better future.

✱ Client Centric Approach

We prioritize our clients' needs, fostering trust and long-term partnerships through responsive service and tailored solutions.

✱ Collaboration

We believe in teamwork and open communication, working closely with stakeholders to achieve shared success.

WHY CHOOSE US ?

* **Technical Excellence**

Our engineering solutions are grounded in sound technical principles, precise calculations, and adherence to relevant codes and standards.

* **Timely Project Delivery**

We follow structured planning and monitoring processes to ensure projects are completed within agreed timelines without compromising quality.

* **Skilled & Experienced Team**

Our workforce comprises qualified engineers and professionals with proven capabilities across varied scales and types of projects.

* **Regulatory Compliance**

We ensure full compliance with statutory norms, safety regulations, and applicable government guidelines throughout project execution.

* **Cost-Effective Solutions**

We design and execute projects with optimal resource utilization, delivering value-driven outcomes without unnecessary overheads.

* **Transparent Processes**

We maintain clear documentation, open communication, and accountability at every stage, building confidence with clients and authorities alike.

EMEP PROJECTS

1

Client: BGCCL

Architect: Benjamin Benjamin & Vats.

Project: Multi storey housing at Jailorwala bagh, Ashok vihar-New Delhi.

Scope of work: Designing, Estimation and preparation of all E&M services.

2

Client: NBCC

Architect: Benjamin Benjamin & Vats.

Project: Security Police line for Delhi Police.

Scope of work: All E&M services except ventilation and HVAC
